When you choose *Advantage*, you'll be assigned to a recruiting professional who will work with you throughout the hiring process. The one-on-one recruiting consultation consists of four parts: Discovery, Advertising, Candidate Screening and Advanced Training.

1. Discovery

During this one-hour interview, your NewHire recruiting professional will ask questions designed to fully explore the details of the job and the culture of the employer. Your recruiting professional will use information from the interview to write the recruitment advertisement and the candidate screening questions.

2. Advertising

Once you approve your NewHire application, your recruiting professional will make advertising recommendations and publish the ads on NewHire, Indeed & SimplyHired.

3. Candidate Screening

Your recruiting professional will review candidates with you and offer guidance to help you make the best hire. You will also learn to use NewHire's powerful candidate screening tools.

4. Advanced Training

We provide up to 4 hours of Advanced Training on NewHire for your entire HR team.
